

Belgian Association for Neuro-Oncology

16th ANNUAL SYMPOSIUM

CONTROVERSIES IN SKULL BASE TUMOURS

Dolce - La Hulpe, Friday, December 1st, 2017

Everybody involved in the care of neuro-oncology patients, is being confronted with challenging questions.

For that reason, the Belgian Association for Neuro-Oncology (BANO) decided to dedicate this year's annual meeting to controversies in Skull Base Tumours and managed to assemble a very attractive program with distinguished national and international speakers. Illustrative cases will be presented triggering a discussion about daily life clinical practices.

This year again, the BBTS (Belgian Brain Tumour Support) has made available 7.000 EUR for researchers in the field of neuro-oncology sending in an application before the 15th November 2017. More information can be found at the BBTS website ([www .bbts.be](http://www.bbts.be)). Both winners from last year will now present their work which has been supported by these prizes.

We are looking forward to welcoming you on Friday, December 1st, 2017 in La Hulpe.

The BANO Board

PROGRAM

13:30 ***Welcome and registration***

14:00 ***Vestibular schwannoma: a multifaceted approach.***
