## SIOG ADVANCED COURSES IN GERIATRIC ONCOLOGY

### EDUCATIONAL OBJECTIVES

The SIOG advanced courses provide the basis of the assessment and the multi-dimensional approach that should be applied to treatment of elderly cancer patients. The course covers general principles of cancer treatment using case-based discussions and debates in geriatrics for clinical oncologists as well as in clinical oncology for geriatricians.

### COURSE DIRECTORS

Etienne Brain - *Institut Curie (Hôpital René Huguenin), St Cloud, France*  
Silvio Monfardini - *Istituto Palazzolo, Fondazione Don Gnocchi, Milan, Italy*

### COURSE COORDINATOR

Giuseppe Colloca - *Policlinico A. Gemelli, Università Cattolica Sacro Cuore, Roma, Italy*

### ACCREDITATION

**European CME credits** (ECMEC®s) granted by the European Accreditation Council for Continuing Medical Education (EACCME®).

### PAST ATTENDANCE

The 2019 Advanced Course was attended by geriatricians, medical oncologists, surgical oncologists, radiation oncologists and anaesthesiologists from 17 different countries.
